

Requests to search the Vermont (VT) Department of Motor Vehicles (DMV) Ignition Interlock Electronic Records, which contain Ignition Interlock subscriber use data and images, may be submitted to the Vermont Department of Motor Vehicles Law Enforcement Division by outside criminal justice agencies. Ignition Interlock Electronic Records will be provided for the purpose of subject identification and evidence to advance an active investigation. The purpose of providing Ignition Interlock data for use by a criminal justice agency is to provide the user with potential

evidence to support an ongoing investigation. The requesting criminal justice agency will determine the value of the evidence provided and use the information to supplement existing investigative practices.

I agree to:

- Securely store electronic and / or printed data and images affiliated with this request in an official records management system (RMS)
- Use the provided electronic and / or printed data and images only for the aforementioned investigative purposes
