Agency of Transportation

Effective June 1, 2009 Motor Fuel Distributors are required to collect an assessment on Gasoline in the amount of 2% of the state average retail price of motor fuel, exclusive of federal and state taxes, upon each gallon of motor fuel sold by the distributor. The state average retail price, as determined by the Department of Public Service, will be used to set the rate on a quarterly basis using the prior three month averages. The Department of Motor Vehicles will calculate the amount of the assessment for each upcoming quarter, and notify the distributor in advance of the rate that will be in effect.

Revenues raised from this assessment will be placed in the Transportation Infrastructure Bond Fund and be dedicated towards helping to maintain the states transportation infrastructure; including roads, bridges, culverts, railroads and airports.

The following is the current table of Motor Fuel Transportation Infrastructure Assessment Fee rates:

To be collected for:	Rate to be collected:
July/August/September 2009	\$0.036 per gallon
October/November/December 2009	\$0.044 per gallon
