Agency of Transportation

Vermont Motor Vehicle Titles, TA-VT-01

August 7, 2008

08-002

As of early August 2008 the Department of Motor Vehicles is using a new Title. The Title is from a new vendor and has a few changes. Most obvious of these changes is the Title is now green.

The new Titles will eventually have bar codes on them. This will be one of the many new features coming as a result of VTDrives, which is a major upgrade of the DMV computer system.

Not all Titles printed in August will be printed on the new Titles. Depending on where and when they are printed it is entirely possible they will be printed on either the existing brown Title or on the new green Title. By early September we will have depleted our stock of the older Titles and all Titles will be printed on the new forms.

Additionally the Title contains the following features,

- ✓ Full Chemical Sensitivity
- ✓ Visible and Invisible Security Fibers
- ✓ Standard Toner Anchorage Feature
- ✓ Document Border
- ✓ Copy Void Pantograph
- ✓ Complex Security Background Design
- ✓ Sequential Control Numbers
- ✓ Safety Block – A 10% screen of erasure sensitive ink shall be printed in the odometer reading block
- ✓ Prismatic Color Background

Questions:

If you have any additional questions, please call the DMV Dealer Unit at 802-828-2038.
