Lake Champlain Quadricentennial License Plate

September 30, 2008

08-006

The Lake Champlain Quadricentennial License Plate has been approved by the Vermont Legislature to be placed on the front of any registered Vermont automobile. The plate must be placed over the existing front license plate in order for the display to be valid. No other manner of display is permissible and therefore a vehicle should not pass inspection if any other configuration is encountered.

This plate became available to the public on July 1, 2008 and is valid for display on Vermont registered vehicles until June 30, 2010.

Should you have any questions regarding this bulletin, please telephone the Vermont Department of Motor Vehicles Inspection Unit at 802-828-2094 or your area DMV Field Inspector.
