## **INFORMATION FOR COMPROMISED LICENSES**

The Vermont Department of Motor Vehicles has a process in place for those customers who have had their license numbers compromised. A compromised license number can occur due to a breach in a computer system or an identity theft situation, which may have resulted in your license information being released to unauthorized individuals. If your license information has been acquired fraudulently you may ask the DMV to code your license file as “compromised”. We will code records as “compromised” only after we have received two letters stating that your license has been compromised.

- The First letter must be a letter from you stating that your license number has been compromised and requesting to have your license coded as “compromised”. You must sign and date this letter.
- The second letter must be a copy of the letter that you received stating that your license number has been compromised.

Send these two letters to:

Vermont Department of Motor Vehicles  
Attn: Quality Control  
120 State Street  
Montpelier, VT 05603

We will then code your record as “compromised”. You may be required to show additional identification when processing future license transactions or if you are stopped by an enforcement officer.

If you have any other questions regarding compromised licenses please call the DMV at 1-802-828-2000.

**For more information concerning identity theft and how to protect yourself from identity theft go to the Vermont Office of the Attorney General’s website:**
