

# Snowmobile Operation Hand Signals

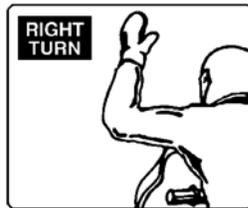

**STOP**

Left arm raised from the shoulder, extended over the head, palm of the hand flat.

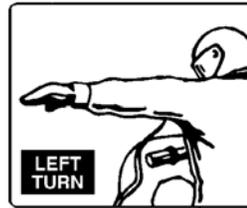

**SLOWING**

Left arm extended out and down, use downward flapping motion of the hand

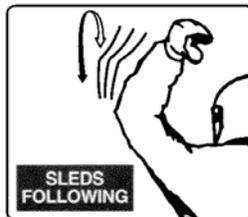

**RIGHT TURN**

Left arm raised at shoulder height, elbow bent forearm vertical, palm of hand flat

**LEFT TURN**

Left arm extended straight out from shoulder, pointed in direction of turn

**SLED FOLLOWING**

Arm raised, with elbow bent and thumb pointing backward. Move arm in a hitch-hiking motion from the front to back

**ONCOMING SLED**

Left arm raised with elbow bent, the forearm vertical, the wrist bent. The arm should move from left to right over the head

**LAST SLED IN LINE**

Left forearm out with palm flat, move repeatedly out and down at 45 degree angle
