- 1) A truck owner with a permit may upgrade through the purchase of additional permits by paying the difference in fees for each permit rather than the full permit fee for each permit. Permits with a lesser weight for the same vehicle or combination of vehicles may be purchased for an administrative fee of \$10.00 each.
- 2) Permits of this type are transferable only if you have relinquished ownership of the original permitted vehicle. A \$5.00 transfer fee will be required.

GENERAL REGULATIONS GOVERNING THIS PERMIT

1. This **ORIGINAL** permit **MUST** be carried in the vehicle during movement. A separate permit shall be issued for each authorized weight and shall be in your possession when operating at that weight. This permit must be presented upon request to any Law Enforcement Officer.
2. The use of this permit by the applicant signifies that the applicant has read all the terms and will comply. These are the rules to obtain a permit; there are additional rules that pertain to the operation of the vehicle under conditions of the permit. **RULES CAN BE OBTAINED AT THE FOLLOWING WEB ADDRESS:** http://dmv.vermont.gov/sites/dmv/files/pdf/DMV-VX012-Oversize_Permit_Rules.pdf
3. All permits referenced in 23 V.S.A. § 1392, are part of the Pilot Program created by 23 U.S.C. Section 127(a)(1)(11)(B) to expire on December 31, 2031.
4. All products permits must conform to the following conditions:
 - a) 3-axle trucks with a single steering axle and rear tandem axles (both powered and braked), which have a maximum gross weight of not more than 60,000 lbs.
 - b) 4-axle trucks with a single steering axle and rear tri-axle unit (two axles of the tri-axle unit powered and braked), which have a maximum gross weight of not more than 69,000 lbs.
 - c) 4-axle tractor semi-trailer combination with a maximum gross weight of not more than 72,000 lbs. provided the distance between the second axle of the tractor and the rear axle of the trailer is at least 24 feet measured to the nearest foot. For each foot or fraction of a foot less than 24 feet measured to the nearest foot, a reduction of 2,000 lbs. in the maximum weight shall be made.
 - d) 5 or more axle tractor semi trailer or truck trailer combination with a maximum gross weight of not more than 76,000 lbs. Provided that the distance between the first and last axle of two consecutive sets of tandem axles is at least 24 feet measured to the nearest foot. For each foot or fraction of a foot less than 24 feet measured to the nearest foot, a reduction of 2,000 lbs. in the maximum gross weight shall be made.
5. 90,000 lbs. "ALL PRODUCTS PERMITS": A minimum of 51 feet between the first and last axle is required for a 5-axle combination and a minimum of 43 feet between centers of the first and last axle group is required for a 6-axle combination and a minimum of 34 feet between the first and last axle is required for a 7-axle combination.
6. 99,000 lbs. PERMITS require at least 6 load bearing axles and 51 feet between centers of the extreme axles.
7. Truck or truck tractor shall be registered for the maximum legal load for its class allowed on the state highway system.
8. Motor vehicle unit shall be equipped with adequate brakes on all wheels and maximum load on any axle of the vehicle shall not exceed a gross weight of 600 lbs. per inch of tire width computed in conformity with the manufacturer's designated width.
9. Tractor and trailer combination must be legal length and width. The maximums are 75 feet long and 8 feet 6 inches total width or trailer may not exceed 53 feet.
10. Posted bridge limits on any state highway system shall not be violated.
11. This permit DOES NOT authorize movement over town class 2, 3 or 4 highways. A town permit is required for movement over town highways.
