## Submitting Distributor Fuel Tax Returns via CVO Online Upload using Excel format

The Vermont Department of Motor Vehicles Commercial Vehicles Operations (CVO) unit, through the CVO Online website will accept Excel files for uploading and submitting the following returns:

- Distributor Fuel Tax Return (CVO-102)

Please note: If you do not have access to a copy of Microsoft Excel, you may also use Google Sheets (a free service) to produce your schedules.

To file your return, please visit CVO Online at [https://cvo.mydmv.vermont.gov/\\_/](https://cvo.mydmv.vermont.gov/_/) and logon. If you have not created a username, you must create one first in order to submit returns on CVO Online. The applicable Excel template is available for download when you log in to file your return online. Save the Excel Workbook file you intend to upload to your computer once you complete it. We recommend saving the file to your desktop or designated file/folder. If you are using an Apple computer, you will need to save the file in Numbers and then “Export To” the Excel file format.

Each worksheet of the Excel Workbook file corresponds to a Distributor Fuel Tax Return schedule. The upload process will automatically add the total receipts and distributions across all schedules, resulting in total tax calculations for gasoline, diesel and aviation gasoline. You should record each receipt of Fuel product on separate lines of schedules 1, 2, 3 or 4. You should record each distribution of Fuel product on a separate lines of schedule 5A, 10A, 5AA,7A or 6D.

The upload process will validate the data entered on each tab of the Excel file is in the correct format. If an error is encountered, it will be displayed for review. In order to resolve any errors, you must fix in the Excel Workbook and upload again. After you upload a valid file, CVO online allows a preview of selected columns from the uploaded schedules. After previewing the schedules, you can verify the totals for inventories, receipts and disbursements by fuel type as well as the tax computation. Once reviewed and confirmed, you can complete the filing of your return by submitting.

Please note: The Excel workbook is read by an automated process that expects a pre-defined Excel Workbook format. Please do not make any changes to the formatted workbook or the upload process will fail.
