In concert with other State jurisdictions, the Vermont Department of Motor Vehicles now evaluates all out-of-state transactions based on your own home state's laws, regulations, and policies. To that end, the Department will not process this/these transaction(s) unless or until the owner of the subject vehicle can establish a legitimate connection to the State of Vermont.

Effective immediately, completion of this form is now required before the DMV processes your transaction(s). Please have the bottom portion of this form completed by the Department of Motor Vehicles or a comparable Agency in the home state of the subject vehicle's owner, certifying that the home state's laws do not require that the applicant register the vehicle there. One form is required for each vehicle.

Once this information is received, a Vermont DMV's law enforcement division member will review this request before ultimately granting or denying your application(s). During this review process, DMV staff may request additional information or verification(s) from the vehicle's owner or his/her home state DMV.

If you have any questions about this process, the owner themselves may schedule an appointment to bring the vehicle to our main office at 120 State Street, Montpelier, VT, by calling the number above. One of our law enforcement division's inspectors will meet with the vehicle owner at that time to discuss the application process and your completed form.

Must be completed by the vehicle OWNER (please print clearly):
