

Vermont (VT) Department of Motor Vehicles (DMV) Ignition Interlock Electronic Records (IIER) contain subscriber use data and images. Criminal justice agencies may request to search DMV IIER. IIER will be provided for subject identification and evidence to advance an active investigation. The purpose of giving Ignition Interlock data for use by an agency is to provide the user with potential evidence to support an ongoing investigation. The requesting criminal justice agency will determine the value of the evidence provided and use the information to supplement existing investigative practices.

I agree to:

- Securely store electronic or printed data and images affiliated with this request in an official records management system (RMS)
- Use the provided electronic or printed data and images only for the aforementioned investigative purposes

Submit the completed form to DMV-Enforcement@vermont.gov
